

# GENERATION 3 FEATURES

Sleek lightweight design

Wet location rated for outdoor use

Smooth dimming & high efficacy

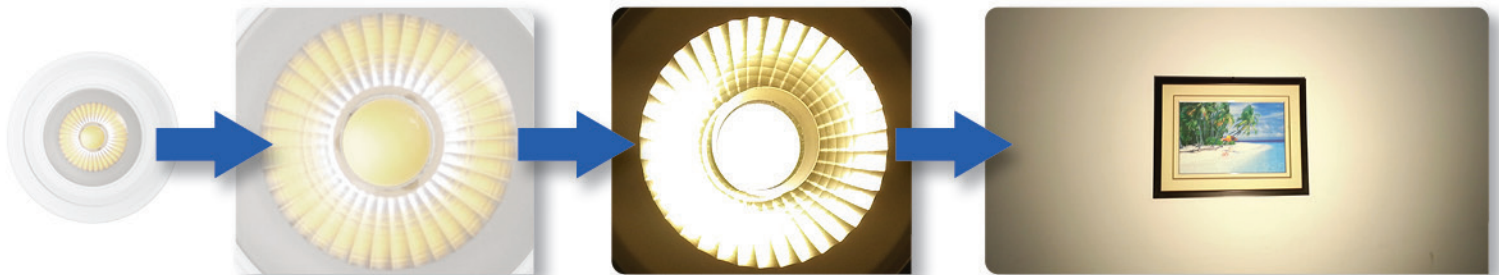

MirOptic lens provides powerful illuminance with little glare

Japanese LED technology with tight binning for consistent CCT

CoolSink technology optimizes thermal management

## MirOptic Lens – Optimum Beam Distribution

The innovative MirOptic design uses a lens with multiple integrated reflectors

Soft and pleasant lighting with low glare

High illuminance with even beam pattern

## CoolSink Technology – Advanced Thermal Management

The CoolSink passive cooling system allows air to flow freely through the lamp

Increased cooling surface area uses the inside and outside of the heat sink

Lower operating temperature of LED and power supply

Longer lifetime and lumen maintenance
